Aungkham Orchid

Mission

1. To produce high quality nurses by providing nursing education at undergraduate levels.
2. To research and enhance knowledge development in nursing, health care services, and nursing education.
3. To provide local communities with information and skills regarding health.
4. To conserve and disseminate local culture and wisdoms.

Curriculum

Currently, we are responsible for developing and managing a professional nursing education program which is affiliated with the faculty of Nursing, at Chiang Mai University. The program is a 4-year full-time course, that accepts high school students from Phayao and Chiang Rai provinces into the program. During the 4 years course, the students must take 144 credits to complete their Bachelor of Nursing Sciences.

Degree name: **Bachelor of Nursing Science**

(in short): **B.N.S.**

Academic results - College

In the academic year of 2012, 97.50% of our students passed the national licensing examination of nursing and midwifery.
